

John Ioannidis

Stanford University, Stanford, CA.

Are medical publications trustworthy?

John Ioannidis is a Greek-American physician-scientist, writer and Stanford University professor who has made contributions to evidence-based medicine, epidemiology, and clinical research.

Ioannidis's 2005 essay "Why Most Published Research Findings Are False" was the most-accessed article in the history of the Public Library of Science, with more than three million views.
